President's Message

Back in March when covid put a stop to our meetings some club's starting talking "zoom". Based on my presumption that covid restrictions would be short term I personally did not push this possibility within our club.

My presumption was not good. Meeting restrictions continued and clubs who took up the immediate challenge and adopted introducing a zoom [or similar] link for meetings have , in the main, found it most successful.

Not only has this link been used for meetings but now is proving a good means for speakers, tutorials and even direct judging evaluations. Last weekend what a pleasure it was to link in to the five guest speakers [2 direct from overseas locations] as part of the APS [Australian Photographic Society] annual convention.....worked perfectly and all in the comfort of one's own lounge chair.

On November 15th members will have the opportunity to open a zoom link into the VAPS AGM which also includes a guest speaker. Vaps is also considering holding the 2021 Convention [initially planned for Wangaratta] as a virtual convention.

All is leading to a new format for clubs / members post covid.

If our club is to be up and ready for this new format then it should be established now rather than later.

Unfortunately I am not in the position to establish this change so we do need a member [or a group of members] to take up this new era in our club.

Brian.
