

# Preparing EDI Images - with Lightroom for WACC & NEGVacc Competitions

...So you have finished working on your images and you're ready to export them.

## To SETUP your EDI Export Preset

1. In the Library module select an image
2. Click **Export** Export...

## Export images using your EDI Preset

- A. Select the images you wish to Export
- B. Click **Export** Export...
- C. Select WACC EDI in the User Presets list
- D. Click **Export** Export

**Note:** for WACC EDI: Image Title~Member **Number**.jpg  
for NEGV EDI: Image Title~Member **Name**.jpg

**3. Enter details as shown:**

**4. Create a folder on your windows desktop and name it "EDI Images" and direct these files to that folder**

Filename will name exported files with the current file name (you can set your file name to also include your member number)

Width & Height will size all exported images to our EDI requirements

**5. Press Add to save these settings as your own Preset, name it WACC EDI**

WACC EDI folder will open for you in Windows Explorer

**6. Click Create to save your preset**

**7. Click Cancel**

**5** Add **6** Create **7** Cancel **D** Export
